Additional Notes

Students placing into MATH 101 or 101EN should speak with an advisor to discuss completion of major in four years.

**MATH 150 Calculus with Analytic Geometry I or ECO 220 Techniques of Economic Analysis may also be used to fulfill the calculus requirement for the major. Students who wish to take higher levels of calculus are advised to take MATH 150.

Majors are advised to complete MATH 150 or MATH 152 or ECO 220 and ECO 221 within their first 75 credits of college work. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major.

An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in the 35 ACC/ACCP credits (except Business Law and ACCP 376). Students who receive a grade of "D" or lower in any of the eleven required accounting courses in the Professional Studies Requirement will be allowed to repeat the course only once. In total, students may repeat no more than three Accounting courses for which they received a grade of "D" or lower. Students who exceed this allowed number of course repeats will be dismissed from the BS program in Accounting. The Academic Adviser for the BS program in Accounting may, under extraordinary circumstances, make exceptions to this rule.

An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in the 36 credits of Other Professional Studies (Business Law, Statistics, Finance, Business Core, and Business Elective). This requirement is separate and measured independently of the required 2.3 GPA for the 35 Accounting credits.

Note: There is no minimum required Grade Point Average for the four to eleven Non-professional Studies credits.

Students enrolled in the BS (accounting) curriculum may not use a CR/NC grade in any of the eleven required Accounting classes. Students enrolled in the BS (accounting) curriculum may use a CR/NC grade only one time toward the 36 credits in the Other Professional Studies requirement. If a student exceeds this limit, any additional CR grades in these 36 credits will be converted to a grade of C and any additional NC grades in these 36 credits will be converted to a grade of F.

***Business electives (12 cr) Choose from the following:

ECO 35900 Economics of Business Organization and Management

Any 300- or 400-level ACCP or ECO course (excluding ACCP 47600 and ECO 49800) Note: ACCP 48000 is strongly recommended.

NOTE: Students may not use any course to fulfill the business elective requirement that is also being used to satisfy any other requirement of the Accounting major.
