102	FROM:
103	"A Charge Deletion is an appeal process where a student is requesting to be released from monetary

105 106	for courses agree to be responsible for the charges associated with the decision to take courses at the college. However, for several reasons, they have the need to drop the course(s). It is the college's hope
100	that the student can do this prior to the start of the semester to avoid incurring charges, unfortunately, this
108	does not happen for many. The appeal process is meant for this situation.

APPENDIX II

"Good afternoon, everyone. The last few weeks have been painful and traumatizing for many of us. Several actions taken at the national level have had a direct and profound impact on members of our community. Folks are feeling anxious, fearful, and hurt. I want you to know that Nancy and I along with the entire leadership team are working doggedly to protect and support you. The chairs and deans have also been strong advocates for their faculty, staff, and students. We are working hard to support all of the members of our community. I hope you have been receiving emails from the Office of the President updating all of you. Please open those emails. They have important information, resources, phone numbers, and additional information from national organizations.

"I want to take a few minutes of my time to highlight some of the things we are doing here at Hunter College. Our Immigrant Student Success Center has been working day and night to support our students. It has educated our students on their rights as well as provided concrete resources like legal counsel. If you have students who are concerned about themselves or family members, please direct them immediately to this Center. It is a vital resource for our students and members of our communities. If you have faculty or staff that are concerned about their legal or immigrant status, you can reach out to our Office of Legal Counsel whether it is full time or part-time faculty. Nancy is also the co-chair of the steering committee of the President's Alliance on Higher Education and Immigration. This is a group of over 500 college and university presidents that are truly enmeshed in this work and are really strong advocates. They are working on educating the academic community about the impact of these recent policy developments and also advocating for our communities. They have developed wonderful resources for academia and also offer frequent webinars on critical topics. We have sent the links out frequently, but we will send it again. You can join up and receive their regular weekly newsletter. Also, I have attended a couple of their training sessions. They have been eye-openers in terms of what we can do in our college community. This is free resource for everyone.

"Again, our college is providing direct and immediate support to immigrant students who have been impacted by recent policy developments. Our Office of Legal Counsel is providing support and services to our faculty and staff. Again, it is really simple to get to them. It is legal@ hunter.cuny.edu. There is also a phone number that is coming with it. Many people have asked Nancy and me in various meetings what we are doing about ICE visits to campus. We have not had any ICE visits to campus. Knock on wood, and let's hope it stays that way. We have developed a very strict protocol for what to do if ICE comes to one of our campuses. These detailed protocols have now been posted online, and you can look at it. If ICE comes to any of our Hunter campuses, and you are stopped or asked questions, you should contact Public Safety and the Office of Legal Counsel immediately. They will make themselves available to whatever office or whatever part of campus you are in, and they will advise you on what to do. Public Safety has been trained on these protocols. Every single safety officer has been trained on all our campuses, but it is really important to connect. So, if anybody encounters somebody from ICE or any law enforcement, please contact Public Safety and the Office of Legal Counsel. The numbers will be published in the email that is coming out. I also want to thank our partner PSC CUNY that is also working on behalf of our students and our community. They have created the immigrant solidarity working group to support our students, faculty, and staff. They have a website. If you go to PSC CUNY and click on the Solidarity group, you will see their open house sessions and town halls that they are organizing. It is open to everybody. So, please attend some of those, as well.

"In addition to our immigrant students, we have also heard from members of the LGBTQ community about their concerns and needs. We have resources for them. We have an LGBTQ affinity space with a full-time coordinator who organizes meetings, know your rights symposiums and listening sessions for people who want to be heard. We also have a queer student union that is working with Student Services to provide workshops, events, and sometimes just a safe listening space for our community members. In addition to that, we also have the LGBTQ Policy Center that is doing tremendous work to try to understand what these new policy developments mean for our transgender community. We are organizing a town hall in the next two weeks for students, faculty, and staff to learn about these policy developments and what we can do to protect our community. So, please attend. We also have an event within our pluralism series about transgender men and women in sports and how some of these recent developments impact their lives. So, we are trying to educate the community as well as empower the community. We are here to fight on behalf of all members of our community.

"We have also heard from faculty about how some recent developments will affect their teaching and interaction with students. People are concerned: "What can I talk about in the classroom? What can I teach? What can I say? Can we have open communication?" The answer is simple: "yes, yes, and yes", but we also want to make sure that everybody is knowledgeable and trained. So, my office, in coordination with the Office of the President, ACERT, the Senate Committee on Academic Freedom and legal experts are going to plan a town hall. It is coming soon. The date has to be decided because there are multiple people who need to be there. This town hall will be related to issues of free speech and academic freedom, with some training on how we can build our skills in the classroom to have these difficult, open-ended conversations in a respectful manner. This is in addition to a panel discussion on academic freedom and free speech that was already planned before all these executive orders which is on March 25th at Roosevelt House at 2 PM. It is a panel with

Minutes Meeting of the Hunter College Senate 19 February 2025

"People are also concerned about research grants and the kinds of research that folks are engaged in. So far, it has been mostly guidance. Only a few stop orders. Thanks to Nancy, for those few people whose research was stopped, we are providing private funds and others resources to continue their studies so that they are not disrupted. We are also advocating for our faculty and informing our community about this. On Friday, February 7th our Associate Provost for Research, Chris Braun, held the first town hall for researchers and scholars at Hunter College. We are going to do these meetings regularly because things seem to change by the day and by the week. So, as we know more, we will inform all of you. Also, if you have questions about classroom policies or assistance with academic issues with all this going on, our Associate Provost for Academic Affairs, Nikki Bennett is also available as counsel and advice. So, we are all here including our deans and our chairs that are working really hard.

"The last thing that I want to say is there was a letter, some of you may have read it, called a Dear Colleague Letter from the Department of Education reinterpreting affirmative action. We had an emergency meeting at college yesterday among senior staff, and, like Nancy has said, we are not stopping. We are Hunter College. What we do is what makes us Hunter College, and so we will continue unless we are legally mandated to do anything which we hope we won't. We will continue to support our community, and we support you in what you are doing. So, please carry on. Do not stop. I was really heartened this morning because the Middle States Commission on Higher Education, which is our accrediting body and we are up in two years, issued a letter that said that this guidance does not have the force and effect of law and does not bind the public or create new legal standard. I am proud of this. It further goes on to say that guidance documents that represent the Department of Education's current thinking on a topic do not see or confer any right or on any person and do not impose any requirements beyond those required under applicable law and regulations. So, this is heartening. I will end with it.

"I want to affirm, and I speak not just on behalf of myself, but everyone on the senior team, everybody on the Senate Admin Committee, the FDA, I want to affirm that we are all in this together. The motto of Hunter College is "the care of the future is mine", and we take this mission very seriously. You all, all of you are an integral part of the Hunter College community and have helped to bring this mission to reality every single day. As a trained social worker, the values of upholding human dignity and striving for human rights are deeply ingrained in me. So, along with the President and everybody else on the senior team, we see you, we hear you, and we are fighting for you. If you need help or assistance, just reach out. Don't send us emails at provost@ or president@. They go to some box that somebody gets. Please directly send me an email to my personal email. I will respond directly. So, thank you for everything that you are doing. Thank you."
