

Student Support and Pipeline Programs Committee

Co-Chairs: Kelvin Black and Caitlin Ho

Key Discussion Areas

- Retention of Hunter's Black students
- Disaggregated data to better understand and assess BIPOC student needs
- Enhanced advising and targeted support
- Accessible platforms for students to learn about and access resources
- The impact of how physical spaces could promote community building and engagement with support and pipeline programs
- How support and pipeline programs could be better resourced to serve BIPOC students

Recommendations That Seek To

- Enhance existing support structures for BIPOC students
- Identify areas where new and additional resources need to be created to support BIPOC students
- Strengthen student support and pipeline program coordination and capacity to reach and respond to BIPOC student needs
- Foster an even stronger sense of community and belonging for Hunter's BIPOC students

Progress and Updates

- Generated a working list of existing student support and pipeline programs, descriptions, and current contacts for staff for each program
- Scheduling stakeholder meetings to discuss possibilities for implementing working group recommendations
- Summarizing working group findings, recommendations, and the outcomes of stakeholder meetings in mini-executive summaries that will be compiled into one final summary submitted by the committee Co-Chair.
